December 3rd, 2024

Microsoft Corporations,
Santa Marta, Colombia.

I am writing to you today to apply for the open position of Software Engineer II

I found the job offer on LinkedIn and would be happy to apply for the vacant position.

I hold an associate degree in Software Analysis and Design from SENA "National Learning Service" and 21 years of experience as an Assistant Human Resources Manager at the Colombian National Police. My experience includes conflict resolution and leadership development, strategic workforce planning, implementing training programs, and ensuring compliance with organizational policies.

My role required exceptional communication, analytical, and decision-making skills, which I consistently demonstrated throughout my tenure.

What excites me most about this opportunity is the possibility of contributing to the creation and improvement of cloud solutions that transform data management and allow companies to make decisions based on reliable and secure information. I am particularly motivated by Microsoft's vision of promoting innovation.

Thank you for your time and for considering me for the position. I have included my resume for your reference. I look forward to hearing back from you.

Sincerely,

Pertuz.
